The second term course for Year 5 will begin on **Saturday, 22<sup>nd</sup> April**.

This term's curriculum has been designed to meet the rigorous standards required of students aspiring to secure a place at a selective high school or earn an independent school scholarship.

By participating in this course, students will have the benefit of getting a head start. Our main focus will be on enhancing their writing and critical thinking abilities, as well as improving their reading comprehension and mathematical reasoning skills. Please refer to the updated term course schedule for further information.

### Year 5 WEMT Course

Year 5 WEMT course has undergone updates to its curriculum. It demands a significant weekly commitment to aid students in establishing a sturdy foundation for the 2024 selective school exam.

The writing module instructs students on the most effective methods for organising writing structure, with an emphasis on developing critical thinking and reasoning abilities. English lessons concentrate on reading proficiency and practice with reading comprehension and multiple-choice questions. The mathematics lessons are crucial for students to comprehend mathematical theories, principles, and formulas, allowing them to solve problems with ease. The thinking skills module offers a range of practical, challenging, and mind-stimulating questions in problem solving and critical thinking.

Students have the option to select one of the following WEMT courses based on their individual needs:

**Standard WEMT(Face-to-face learning):** Face-to-face learning in class & access all Cyberschool services

**Cyber WEMT(Video lesson):** Self-paced learning from home using pre-recorded Cyberschool video lessons

### Selective Trial Test Course (STTC)

Year 5 Selective Trial Test Course (STTC) is an extensive program aimed at preparing students for the 2024 Selective High School Placement Test. The course encompasses a variety of question types, simulating the format, timing, and conditions of the actual exam.

Throughout the course, students will participate in weekly trial tests and will learn the most effective ways to tackle selective exam style questions. They are expected to download and memorise the vocabularies provided on Cyberschool and take the online vocab practice test.

SINCE 1992

### What's On

**11 – 17 March**

Term tests period

**15 – 27 March**

NAPLAN test period

## Year 5 Writing Course (Wednesday)

The Year 5 Writing course aims to enhance students' technical and imaginative writing abilities.

The objective of the course is to address each student's individual writing needs, fostering confidence, competence, and expertise in writing.

This course will support students in their personal performance in all written assignments at school, as well as in writing exams for selective school placement and independent school scholarship exams.

The second term of the course will emphasize the development of narrative writing skills, including grammar, spelling, and punctuation, which are integral components of the course curriculum.

### Key topics to be covered in term 2:

- Nouns & verbs
- Planning for narrative writing
- Cohesion in writing
- How to develop a complication of your story
- Making your character unique
- Character vs Nature
- Character vs Self
- Character development
