Year 3 Term 3 course will commence on **Saturday, 16<sup>th</sup> July 2022.**

Term 3 courses are structured to accommodate the academic standards expected of students who are aiming for the success in the OC placement tests next year.

In addition to having the advantage of getting ahead, students will put focus on improving their **thinking skills** and **mathematical reasoning skills** as well as **reading comprehension** and **writing skills**.

Please check out the new Year 3 timetable below.

### Year 3 WEMT Course

To align and accommodate the changes in the new OC placement test formats, Year 3 WEMT course is introducing the new modules with its updated curriculum. It requires a significant commitment of weekly module work that includes a new thinking skills component to help students build a solid foundation for their OC placement test next year.

The course will be delivered in both way – ‘**Standard WEMT course**’ in a normal face-to-face class and online ‘**Cyber WEMT course**’ using the Cyberschool services only. Students can choose the course option according to their needs and learning style.

- The **writing** module teaches students the most efficient ways in organising writing structure with a focus on developing critical thinking and reasoning skills.
- **English** lesson will focus on reading skills and practising reading comprehension and multiple-choice questions.
- **Mathematics** lessons are essential for students to thoroughly understand mathematical theories, principles and formulas to solve problems.
- **Thinking skills** lesson covers a variety of practical, challenging and mind-stimulating questions in problem solving and critical thinking skills.

The course is delivered in two different ways:

1. **Standard WEMT** in a normal face-to-face class learning or
2. **Cyber WEMT** using the **Cyberschool video lessons** in their home
