Homepage: <http://www.eppingpreuni.com>

Year 4 Term 2 course will commence on **Saturday, 22<sup>nd</sup> April 2023.**

The term 2 courses are designed to align with the rigorous academic requirements for students targeting admission to Opportunity Class (OC) after their OC placement tests in July this year.

Along with the added benefit of getting a head start, our focus will be on enhancing their cognitive abilities, mathematical aptitude, and proficiency in reading and writing. Please find our Term 2 course schedule below and over the page.

### Year 4 WEMT Course

The Year 4 WEMT course is revamping its curriculum with new modules and is set to demand a substantial weekly commitment from students. The updated curriculum includes a thinking skills component aimed at preparing students for the 2023 Opportunity Class placement test.

The writing module focuses on developing critical thinking and reasoning skills and teaches students the most effective methods for organising writing structure. English lessons concentrate on honing reading skills and practicing comprehension and answering multiple-choice questions. Mathematics lessons are crucial for students to master mathematical theories, principles, and formulas, and to be able to solve problems with ease. The thinking skills lesson offers a range of practical, challenging, and mentally stimulating questions to help students improve their problem-solving and critical thinking skills. Students can choose from one of the following WEMT courses that best suits their needs:

**Standard WEMT (Face-to-face learning):** Face-to-face learning in class & access all Cyberschool services

**Cyber WEMT (Video lesson):** Self-paced learning from home using pre-recorded Cyberschool video lessons

### OC Trial Test Course (OCTTC)

The Year 4 Opportunity Class Trial Test Course (OCTTC) is vital for students preparing for the 2023 Opportunity Class placement test.

The course provides weekly assessments to evaluate the student's knowledge and test performance. By regularly taking OC trial tests, students will have the opportunity to refine their exam-taking skills and feel confident on the day of the actual exam. The course features questions of various types, mimicking the format, timing, and conditions of the actual exam, allowing students to practice managing their time efficiently, reducing errors, overcoming test anxiety, and performing to the best of their abilities.

### What's On

**11 – 17 March**

Term tests period

**Saturday, 25 March, 5PM**

Autumn E/B Discount offer ends

**30 March – 15 May**

# 2023 YEAR 4 TERM 2 NEWSLETTER

25<sup>th</sup> Feb 2023

Students will take the mathematical reasoning and thinking skills tests in one week, followed by reading tests the following week, taking two weeks to complete a set of OC trial tests. After the test, students will review the questions with their teacher, with a particular emphasis on challenging questions. For further information, kindly refer to the [2023 OTTC newsletter](#).

## Year 4 Term 2 Timetable (22 April – 1 July)
