### Year 7 Term 3 Elite EM Course (16 July– 17Sep)

Pre-uni New College High School proudly announces the commencement of Year 7 Elite EM (English and Maths) Course in Term 3.

As the beginning of the school year approaches, it's time to think about secondary learning. Pre-uni New College believes it is important to expose you to topics in advance to ensure you stay one term ahead of school. We provide detailed material and comprehensive feedback to facilitate preparation and skills in all areas of your education. This will help to build your confidence as you prepare for your school exams.

During high school, students become more vulnerable to ineffective study habits in the absence of continued guidance and coaching. Our years of successful results clearly indicate that Pre-uni New College has the best academic formula to help your child overcome these issues.

### Our Learning System

The key to our continuing academic success begins with maximum exposure to advanced course materials for our students. Our workbook materials allow students to practice the techniques and methods they have learnt at Pre-uni New College to tackle both assignment and exam-style questions. Along with the lessons and tutorials, we offer free tutoring services to ensure that students receive the best support they need to confront the areas that they find particularly challenging. Extra academic assistance will make a big difference in the overall academic performance and work ethic of students.

**By attending our Term 3 courses, you will benefit from...**

- ✓ **Free Tutorial class** (1 hour tutorial session after the lesson to complement and reinforce the content)
- ✓ **Free Video Lessons on** [cyberschool.com.au](http://cyberschool.com.au)

During tutorials, your child will be assigned to one of our experienced and knowledgeable tutors who will help enhance their skills in critical thinking and problem solving. Tutors will also be available to assist in tasks including but not limited to:

- Clarifying unclear and confusing concepts taught in class
- Detailed working out on class-work, homework or quiz questions that your child finds challenging.
- Essential study and exam strategies
- Critical feedback and guidance on areas that need improvement

Cyberschool ([cyberschool.com.au](http://cyberschool.com.au)) also provides Video Lessons (Lesson and Workbook) to students who enrol in the Elite EM Course. In these video lessons, every question in their English and Mathematics book is explained audibly and visually. Students who are struggling and wish to review recent modules can access these online lessons to reinforce unclear concepts or questions.
